

**Brown, Bear, Brown Bear,
What Do You See?**

Handprint Activity

Directions for Parents

1. Carefully cut out the bear artwork along the blue line.
2. Paint* your child's hand, press firmly onto a piece of paper or onto a paper plate.
3. Quickly go wash hands and remove paint!
4. Once the paint is dry on the paper, use a glue stick to place the bear's head over the handprint. Your little one's handprinted fingers will look like the bear's legs and the palm area will look like the bear's body!
5. Allow to dry.
6. Date your craft so you and your little one will always remember it!

*Suggest using non-toxic **washable** tempera paints.
